

Sauce & Spoon Tablet Rollout

Impact Report

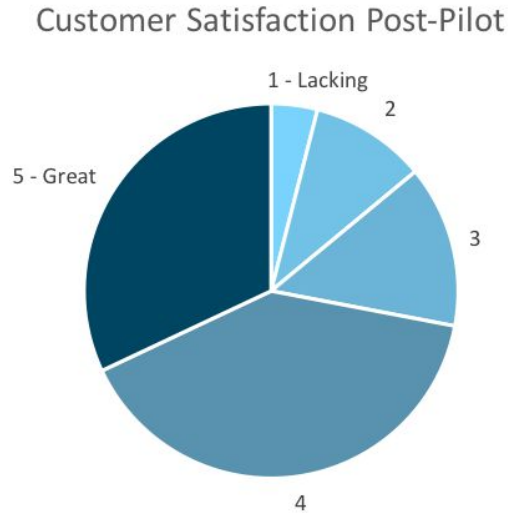

Executive Summary

This project contributed to increased sales, reduced wait times, waste, and customer complaints. 86% of respondents indicated satisfaction with the tablets, which contributed to a 20% revenue increase after the launch. Two additional achievements through this project were 10% increased daily guest count and decreased table wait times of 30 minutes. Three lessons we learned that there was initial trouble with the tablet layout, as well as clarity on payment options available. We look forward to expanding this tablet roll out to other locations, as well as continue to track customer satisfaction, and lastly expand tablet features from Q2 through to Q4 as our next steps.

Customer Satisfaction: Pilot

Q. On a scale of 1-5, please rate your experience with the tablet overall.
